Dear Sir/madam

I have several thesis lead on AGWA 2, but I can't download latest version from your site. or after download I have error in setup it.

please help me may I receive your product CD or DVD by mail.

SAEID SHABANLOU

PHD of Hydrology and Water Resource

Are you having trouble downloading AGWA or installing it once it's downloaded. If you're having trouble installing it, then sending it by mail won't help. If you're receiving an error during setup/installation, it's likely caused by the software prerequisites not being met.

Let me know if it's a download problem or an installation/setup problem and we can take it from there.

Thanks

Shea
